

# Metal Coil Drapery

Metal coil drapery is a type of modern decorative mesh curtain.

• LUXURIOUS

• PRACTICAL

## 01

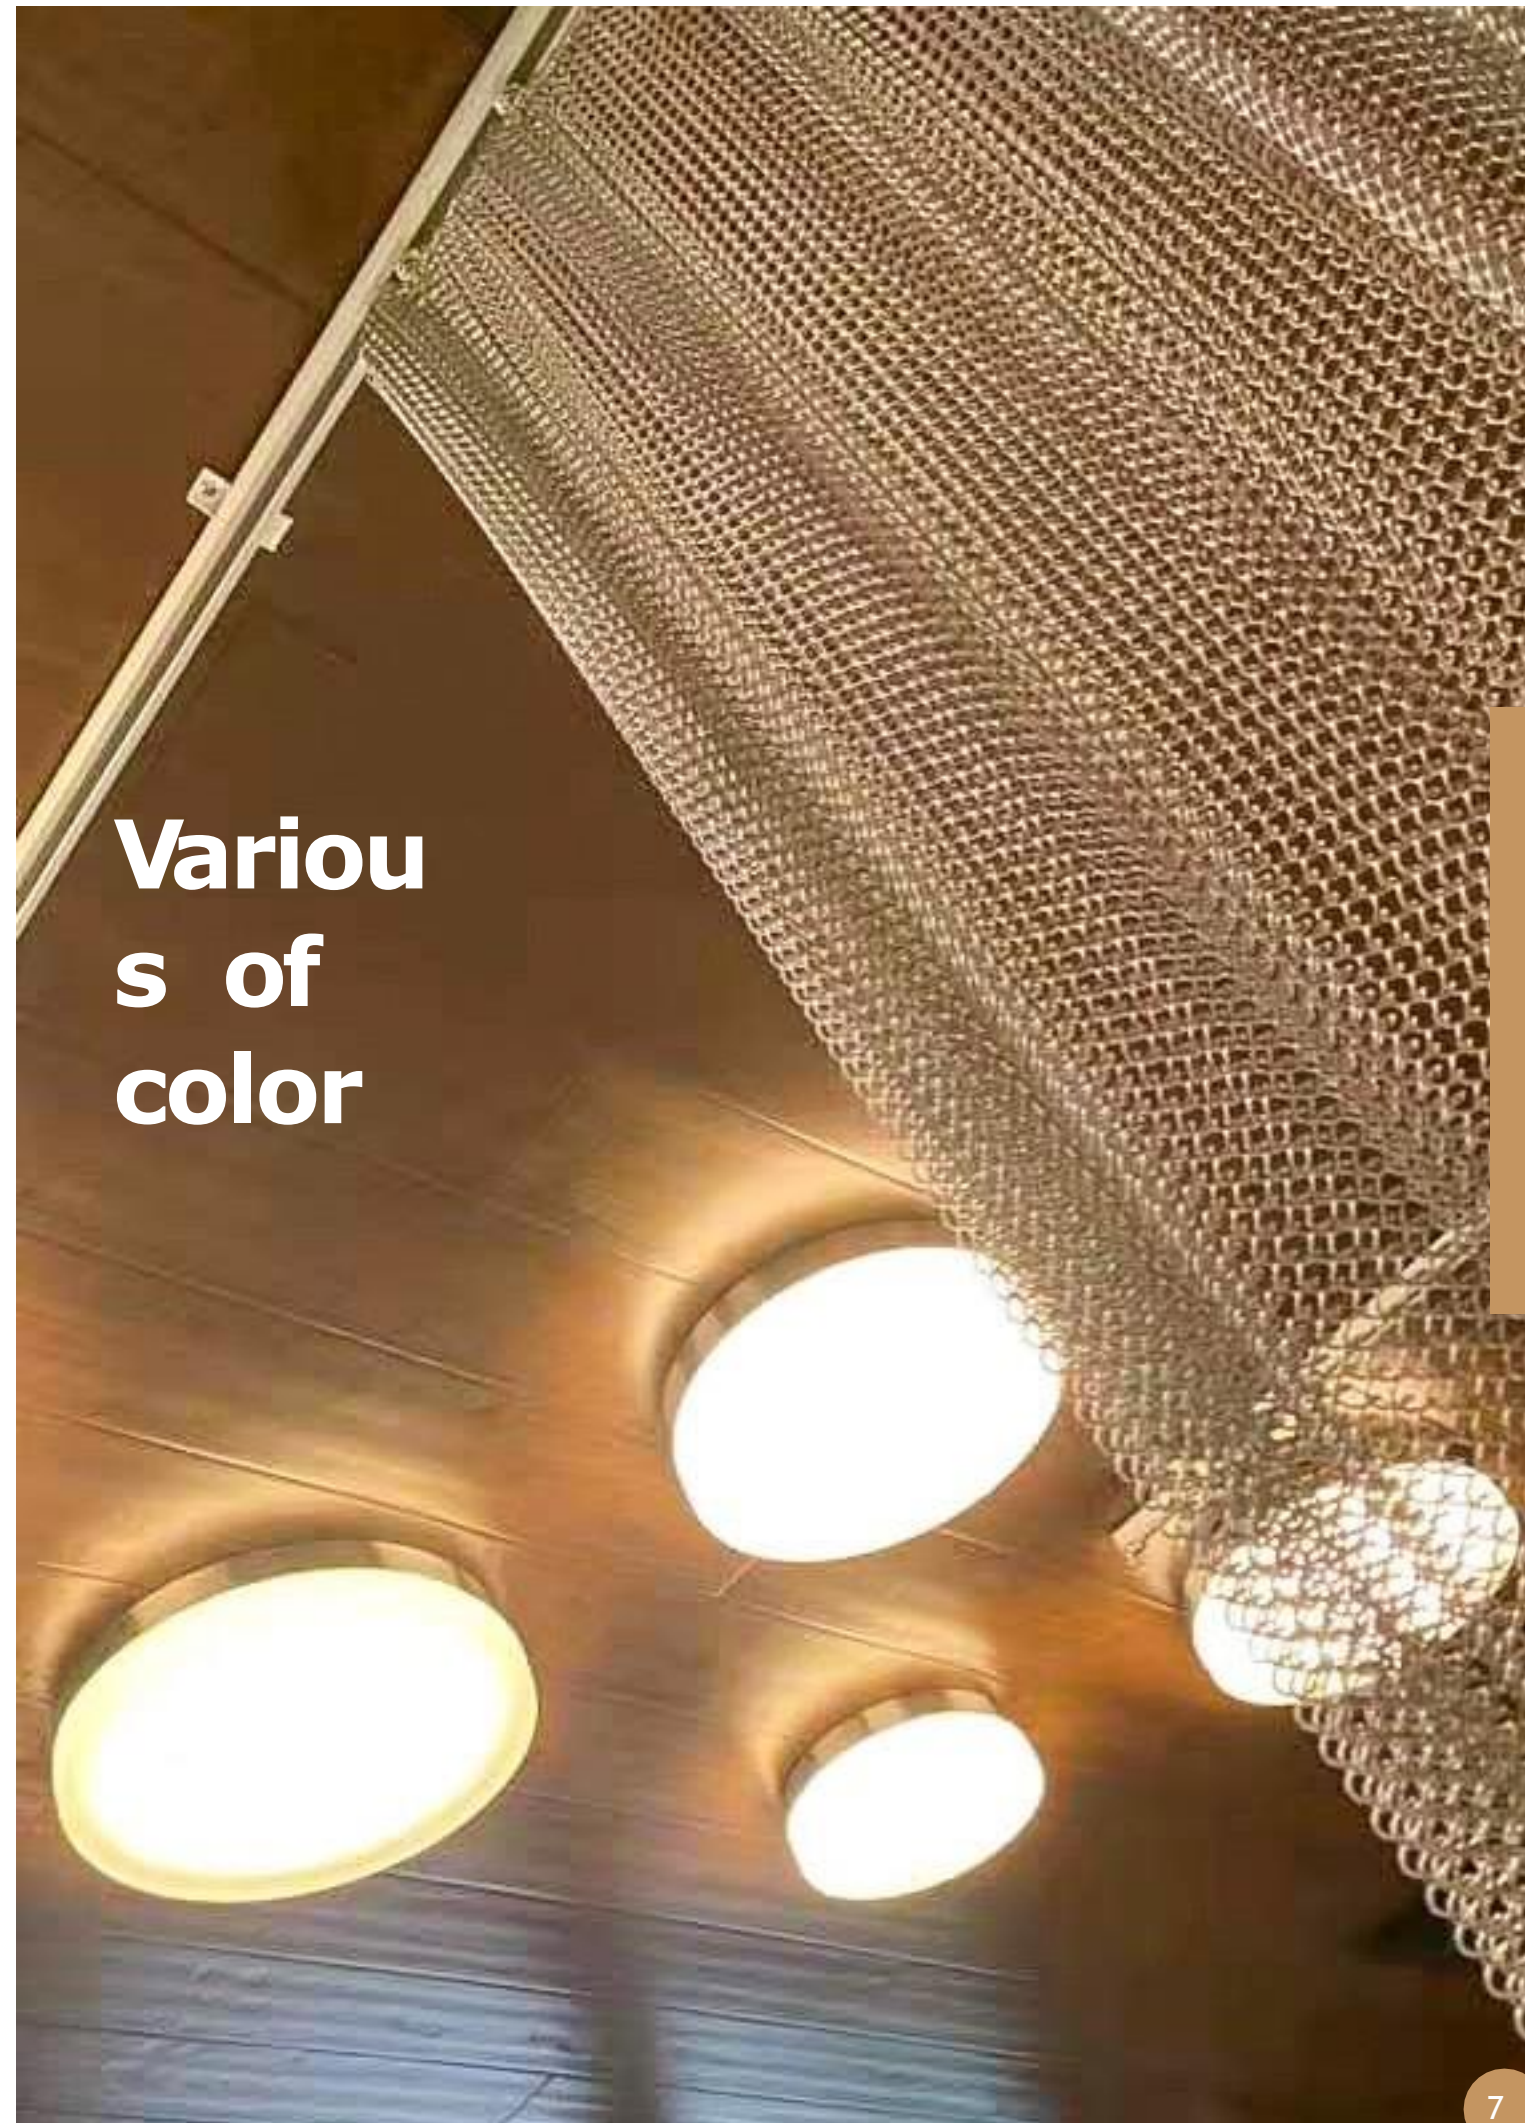

The advantage of Metal coil drapery is it could slid on the channel as a whole piece, and the cost performance is more suitable for customers, compared with chain link curtain, and other decorative mesh.

The chain on the surface of the curtain can secure the rippled effect.

▼ **1-10 VARIOUS**

Original metallic color, or spray chart into bronze, gold, ebony black, purplish red, etc, customized color is available.

# Fix instruction

Metal coil drapery is made from stainless steel or aluminum wires. When used as decoration, metal coil drapery looks like a whole piece, which differs from the strip-type chain link curtain.

pipe mounting

straight fix

curved rail fix

angle fix

avenue fix

beam fix

tube fix

vise fix

weave fix

**NOTICE:**

If customers would like to make weave for curtain fixing, the overall length of the product is 1.5-2times for the run length.
